

Native Coders. <https://www.nativecoders.se/>

- Coding services in major programming languages, CMS's and e-commerce and much more. Everything with focus on CSR/ESG and to empower female coders in Nairobi.
- Low pricing

OFFER

We give a 40% discount on the first month's invoicing and a 20% discount on month two. Refers to remote teams consisting of at least one full-time employee (can, however, be shared between two client companies).

ABOUT NATIVE CODERS

We work with a focus on female developers in Nairobi, Kenya and deliver development services to mainly Swedish customers. The company group was founded in Sweden 2018 and has done customer deliveries since 2020.

Native Coders has a focus on CSR/ESG, and as a customer you can always feel confident that our business can stand up to scrutiny. We call it FAIR CODING (in short, fair conditions for our employees).

Kenya is a leading IT nation in Africa with good access to tech talent, perfect English (official language), +1 or +2 hour time difference and low cost.

Why the focus on Women in Tech in Kenya? Especially in poorer countries, there is a positive difference in how women choose to invest their money when it comes to family and society.

OUR DEVELOPERS AND SKILLS

Native Coders has developers in most major programming languages, CMS's and e-commerce. Normally, we can staff an assignment within 4-8 weeks from sign, but in many cases start-up can take place within just 1-2 weeks from customer meeting if there is a clear profile.

We do not charge for search or anything else (computer, office, local management, etc.). Zero kroner for the first delivered hour. Approximate price picture: SEK 230 - 390 per hour depending on seniority. A contact person / delivery manager is always in Sweden and makes ongoing reconciliations both with the customer and the team.

THE MANAGEMENT

The management has + 20 years of experience from senior IT positions and leadership roles

Key people: Jonas Linder, owner/founder and Silvia Modin, chairman of the board. Silvia is also Business Manager at Queenslab in Gothenburg and sits on the board of Metoo Sweden.
